Subject: Claim 6 of the '683 Patent

Kirstin:

ePlus hereby notifies Lawson that it will not assert at trial that Lawson infringes claim 6 of the '683 patent. As you are aware, the only limited purpose for which the Court had permitted Lawson to introduce evidence concerning versions of Lawson software prior to the versions accused of infringement by ePlus was with respect to Lawson's allegation of invalidity concerning one claim element of claim 6 of the '683 patent. Accordingly, now that ePlus has withdrawn its assertion of infringement of claim 6 of the '683 patent, and, additionally, for all of the reasons previously articulated by ePlus and set forth in the Court's prior rulings, all evidence and exhibits concerning Lawson software prior to the versions accused of infringement by ePlus are irrelevant and inadmissible. As such, please confirm before our meet and confer tomorrow afternoon that Lawson will withdraw the following exhibits:
